CHARLESTOWN, Oct. 5th, 1837. Messis, Marchant & Smith,

Gentlemen . By request, I am happy to inform you, that in the Districts composed of Charlestown, Garland and Atkinson our opponents (consequently the opponents of what we deem sound policy and good government) failed ment, because I think there is yet a chance to elect the Whig exididate at the next trial

The votes thrown stand thus: Chase.

217 Snow. Scattering,

Every exertion, that possibly could be, was resorted to, to effect the election by the locos. Individuals from your city; were here a number of days previous to the election, and you may depend that every stone was rolled that could effect them favorably. Their usual low courses were resorted to, to unite the fragments of, their party, and their determination evidently was, to carry the election by storm. The party in Garland were so confident of success, that they began to blow their blasts, by a sacrifice of ammunition that perhaps they may need in the re-cuing of our long neglected country in the North-East. But they have done their best this time. The 12higs cun do more and will do-more. spronents may meet a check next winter from and one at Amity, Columbus Dunn, P. M. this district. The Whigs here, feel that the end of their (the locos) present game is to carry the election of Governor into the Legislature, and all their misstatements in relation to the viture of fa! and perjurious deeds to be hereafter com-Billed. In haste, Yours truly,

Paris, Oct. 3d, 1837.

: 5 11or Springs, (Va) Sept 8, 1837. Thermopolis has been spoken of as a suitable name for the city or town that must spring up here to accommodate the throng of valetudinarians annually attracted hither in pursuit both of health and pleasure. From its derivation it

seems to be an appropriate name; and it is cer-

tojuly suphonious and honorable. --- --

In the centre of a beautifu! amphitheatre, these tepid waters burst forth in several places, all differing, however, in temperature. Over these several springs the enterprising proprietor, Dr. Goode, has erected commodious build ings and fitted up his delightful baths. Of these bathing establishments there are three kinds: first, the Pleasure Bath occupied by the ladies and gentlemen alternately, two hours each ; 2d the spoul throf which there is one for the ladica, and one for the gentlemen; and last, the Boiler of which there is one for each of the It is singular that the Tory votes in each of sexes. The Pleasure Bath is an octagonal shaplike building open at the top for the free admis-

The Spout Buth derives its made from the fact that the water is conducted through a performed log or spout from the spring to a build. ing orested for the purpose, containing the bath about twenty feet square, and five feet deep, 1 targe room, occupied by the bathers in common, with a fire-place and several small and convenient dressing rooms. The temperature of the those on crutches, there is quite a regiment. No charges itself in 96, or 98 degrees, while the in that all are strikingly similar ; every one carwater from the spout is 1067. When this heated torrent has been entirely oured of rheumatism, stated first strikes one, it is extremely difficult to avoid exclaiming, so sudden and powerful is the shock. The water feels almost scalding at first, but one soon becomes accustomed to it, when it is highly agreeable. This both is usually taken twice a day about 10 o'clock A. M , and 4 or 5 o clock, P. He is allowed to remain in the bath fifteen minutes at a time Now if one remembers all this, and is sure to wear a cloak from the bath to his room, the necessary the indispensable routine of bathing will be observed.

The Boiler, so called, is another famous batht and almost sovereign remedy against gout and rheumatism, and nearly all chronic diseases, so people will tell you. Indeed, it is a most potent remedial agent in the two complaints named as well as many others. I have proof of this in large wooden building, the centre of which is The chief of the Sioux Indians now at Wash | occupies, while on either side there are eight or ter remaining in the bath from fifteen to twenty minutes, or till the perspiration begins to start and, throwing yourself on a cot, the superintendant a very excellent and obliging fellow

Soon You feel that every pore is sending forth a stream which trickles down your helpless body, completely wetting the blankets and mattrass and not unfrequently running through all on to the floor After lying in this helpless posture from forty to fifty minutes, the blankets are removed at intervals of five minutes, and you are gradually cooled when you rise and dress and are no more liable-to take cold than before you went in. This process is generally repeated once a day with the happiest results. While taking this bath one does not lose flesh and strength as might be supposed; on the contrary he is pretty sure to gain both. The only loss he is Stephen J. Bowles, George Waugh

liable to sustain is the loss of his complaints. Thoudvantage that I conceive this watering place has over others among these mountains is, that Dr. Goode, who, I have already said, is the proprietor, is an intelligent well read physician; one who, having carefully watched the effects of thoroughly qualified to give directions in their application.. r. & I. S. WHITMAN, Agents, Bangor HIE friends of Hyge anism and the public generally, are again cautioned against the unprin upled attempts of apothecaries and quark doctors to destroy all confidence in these highly valuable and almost indispensable family my dicties, by the cry of imposition exorbitant prices falsehood and more than all, by the astonishing benevolence of the craft

n imparting to the world their wonderful discovers of the composition of them that a three dollar pack et costs but one shilling that any person can make them, etc. Counterfeiters also beware of the law The British College of Health have recently recov cred damages of the makers and venders of a spurions dangerous article in the courts of Massachusetts and New York, and their exclusive light and property in the sale, is firmly established and confirmed in Two hundred thousand dollars worth of these sim

le and effective incdicines are sold annually in the nited States and injury from them is unheard of One cause of the high price they hear, is a heavy export duty paid in England, yet they are incompar ably cheeper than any patent medicines ever offered sarring as they do, expensive and protracted fits of sickness

The genuine article cannot be bought of apothe caries travellers or pedlars they being denied the sale throughout the world. The only place in this section where they can be had, is at the store of F S WIIIIMAN Bangor, (whose s gnature is labelled on every packet they sell) where may be seen printed reports of recent trials, certificates Subscriptions received to the Family Adviser and Hygeian Record, a paper published al New York at \$1 per annum.
